

4th INTERNATIONAL CONFERENCE ON

METROLOGY FOR ARCHAEOLOGY AND CULTURAL HERITAGE

CASSINO, ITALY | 22 - 24 OCTOBER 2018

CALL FOR DEMONSTRATION

The IEEE MetroArcheo 2018 Conference will have "Live Demonstration" track to allow an interactive and tangible form of presentation, which is quite different from the oral and poster sessions. The demonstrations will be conducted in presentation booths and ample space will be provided to set up a working system, may it be interactive software on a laptop or a hardware setup. Conference delegates are invited to experience the demonstrations directly, to interact with, play with, and challenge them. Presenters will have the opportunity to show direct proof of their working systems and to create a lasting impression. Prospective demonstrations could be either be related to the work that has already been published or the one going to be published during the IEEE MetroArcheo 2018 Workshop.

DEMO GUIDELINES

Proposals of live demonstrations should submit a one-page description of the demonstration, using the same page formatting as for regular IEEE MetroArcheo papers. In case of demonstration based on already published work, the paper must include a reference to at least one earlier publication.

In addition, there will be a "Best Demonstration Contest" to recognize the top live demonstration and encourage the participation in the demonstration session. The contest winner will receive the "Best Demonstration Award" of IEEE MetroArcheo 2018.
